## Section A: Unseen Passage

### Comprehension Passage

#### The School Garden

Our school has a beautiful garden near the playground. It was once an empty piece of land, but now it is full of colourful flowers and plants. Last year, our teachers encouraged us to plant saplings on World Environment Day. Each class took part in planting and watering them. We planted roses, marigolds, tulips, and even small fruit plants. Every morning, students take turns watering the garden and removing weeds. Sometimes butterflies visit the flowers, making the garden look like a fairyland.

Our science teacher says that plants give us fresh air and make the school look green and happy. We also have a small compost pit near the garden where we put dry leaves to make natural fertilizer. Taking care of the garden has taught us teamwork, responsibility, and love for nature.
